INFORMATION DISCLOSURE STATEMENT

**List of Sections Forming Part of This
Information Disclosure Statement**

The following sections are being submitted for this Information Disclosure Statement:

1. [X] Preliminary Statements
2. [X] Form PTO-1449 (Modified)
3. [X] Statements as to Information Not Found in Patents or Publications (Information not listed in PTO 1449 (Modified))
4. [X] Identification of Prior Application In Which Listed Information Was Already Cited and for Which No Copies Are Submitted Or Need to Be Submitted

- 5. ☒ Copies of Listed Information Items Accompanying this Statement.
- 6. ☒ Identification of Person(s) Making this Information Disclosure Statement

Section 1. Preliminary Statements

Applicant submits herewith patents, publications or other information of which he is aware, which he believes may be material to the examination of this application and in respect of which there may be a duty to disclose.

The filing of this information disclosure statement shall not be construed as a representation that a search has been made (37 C.F.R. § 1.97(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this information disclosure statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13-25, at 25.

Section 2. Form PTO-1449 (Modified)

☒ A previous submitted Form 1449 (Modified) from prior application is attached hereto.

☐ No Form 1449 (Modified) is attached.

Section 3. Statements as to Information Not Found in Patents or Publications (Information not listed in PTO 1449 (Modified))

Flower pot covers have traditionally been disposed about the outer surfaces of flower pots to decorate the flower pot and to minimize the amount of water or potting medium which may spill from the flower pot. The materials typically used to form decorative flower pot covers are relatively thin. While such thin materials are attractive in that they provide the flower pot covers with a skirt having a loose, billowy appearance, such materials are susceptible to puncturing or tearing by sharp areas or edges on or near the bottom and

sides of the flower pot which allows moisture to leak through the flower pot cover, possibly causing damage to carpet, furniture, tile, and other surfaces upon which the flower pot cover may be disposed.

However, if rigid or semi-rigid materials are used to produce flower pot covers and make the flower pot covers less susceptible to puncturing or tearing, then the skirt of the flower pot cover loses its loose, billowy appearance. Thus, it would be of benefit to the floral industry and to the end purchaser to have a flower pot cover constructed of rigid or semi-rigid material, but which has a skirt having a loose, billowy appearance.

Section 4. Identification of Prior Application In Which Listed Information Was Already Cited and for Which No Copies Are Submitted Or Need Be Submitted

This application relies, under 35 U.S.C. § 120, on the earlier filing date of prior application Serial No. 10/247,257, filed on 09/13/2002. **The below listed references were submitted to and/or cited by the Office in this prior application.** Therefore, copies are not submitted herewith.
